

Dental Visit Summary

This document contains fictional test data created for LifeLens ingestion and retrieval testing.

Patient

Maya Sharma

Visit

Bayview Family Dental - June 4, 2025 at 2:00 PM.

Reason for Visit

Routine cleaning and evaluation of sensitivity in the lower-left molar.

Findings

No cavity was identified. Mild gum inflammation was noted around the lower-left molar. The dentist recommended switching to a soft-bristle toothbrush and using sensitivity toothpaste for four weeks.

Treatment

Routine cleaning completed. No prescription medication was issued.

Follow-up

Next routine cleaning recommended in six months, around December 2025. If sensitivity worsens or persists after four weeks, schedule an earlier follow-up.

Billing

Amount billed: \$185. Insurance estimate: \$140. Estimated patient responsibility: \$45.
